## FROM LATIN AMERICA TO THE WORLD

## REAL GLOBAL NETWORK

100% of students live together for a true multicultural experience which contributes to a thorough professional enrichment.

The number of different nationalities from our 2017 class is only the first step to boost your network to an international level which would take years to achieve without the 24/7 cultural immersion.

Our classes are diverse not only in cultures but also in professional backgrounds. Our students have varied experiences which not only enrich class participation but also the personal experience of every student.

WE TAKE GLOBAL SERIOUSLY

## GUIDED CONSULTING PROJECT

Students must develop a **Management Consulting Project (MCP)** to address an important strategy issue that the management of a company needs to solve. They take the role of consultants and dedicate themselves full time in carrying out the project at the company's location.

The consultant teams are comprised by highly qualified students from our MBA program.

**They bring to the projects their knowledge of Latin America with a global perspective,** and their sophisticated analytical capabilities with a solid mastery of the issues of competitiveness and sustainability.
